**A Bitcoin wallet** is as simple as a single pairing of a Bitcoin address with its corresponding Bitcoin private key. Such a wallet has been generated and is displayed above.

**To safeguard this wallet** you must retain this page or otherwise record the Bitcoin address and private key. It is important to make a backup copy of the private key and store it in a safe location, or transfer it to a different wallet. Treat a paper wallet like cash or a signed check.

**Claim the funds** in this wallet by importing either the WIF or the BIP39/44 seed into a web-wallet or software wallet, then sending the entire balance to a new wallet or exchange. Many wallets will do this automatically for WIF imports and call the process a "sweep". Popular web-wallets with WIF import capabilities include [coin.space](https://coin.space) (Georgia, US), [BTC.com](https://BTC.com) (Amsterdam, NL) or [Blockchain.com](https://Blockchain.com) (London, GB). A popular software wallet with good import capabilities would be [Electrum](https://Electrum) (Berlin, DE). More wallet choices can be found on the [Bitcoin.org Wallet Chooser](https://Bitcoin.org/Wallet-Chooser). You will need a wallet that has either WIF import capabilities or offers BIP39 and BIP44 compatibility. If you begin to retain significant amounts of bitcoin, many users will choose to start using a hardware wallet such as Trezor (Prague, CZ) or Ledger (Paris, FR).

**Check your balance** by going to [Blockchain.com](https://Blockchain.com) (London, GB) or [BTC.com](https://BTC.com) (Amsterdam, NL) and entering your Bitcoin address above. Your funds are fully claimed when the balance in this bitcoin address reads zero. Any funds left in this address will eventually be voided.

**Cash out your bitcoins** for USD by sending them to an exchange after you've imported the key detailed above. Two popular bitcoin exchanges are [Coinbase.com](https://Coinbase.com) (San Francisco, US) and [Gemini.com](https://Gemini.com) (New York, US). A more complete list can be found on the [Bitcoin.org exchange chooser](https://Bitcoin.org/exchange-chooser).

**Void after 90 days.** Please note that the funds in this wallet need to either be spent to a new wallet or sent to an exchange in the next 90 days or they will be forfeit.
